

JABER YAZDANKHAH PHOTOGRAPHER

Objective

To be able to achieve the most impact in various genre of photography whereby the collective portfolio presents a very compelling story through the magic and power of digital photography in order to always amaze viewer.

I am an experienced professional digital photographer who create 360° interactive, immersive images, also called 360° panoramas. My (expertises) specialties are included professional photography, photo editing, web development, design, artistic creativity, virtual tour, passion and perseverance that produce immersive experiences. In this regard, my mission is to promote the success of Professional VR Photography.

As a photographer, with more than a decade of 360 panorama photography, more virtual tours for national brands, municipalities, hotel industry, health services, palaces, petrochemical industries, factories and so on, I am always looking for doing new creative projects in this field.
